Subject: 210 Vertical Reference Door Saga

Bill/MO,

Canadian STC SH92-54 has been updated to add ICA-D412-711 as well as an updated FMS that is applicable to the 205A/A1/B and 210 models.

This is the first step to getting the 210 added to our FAA STC per MO's agreement with Bell.

We (and when I say we, I mean Peter and Kim) will immediately put together the application to get the FAA STC updated.

Still hoping to see the rest of the 210 updates from the FAA roll in before the end of January.

Kim,

Please create ECN and update the blue file accordingly. STC looks good.

Peter,

Good work on this one. I will get the originals here in Calgary and will forward them to you immediately upon receipt, along with the rest of the stuff you sent me for signing.

If I can find a half decent golf swing lying around here, I'll send you that too. Looks like you need it ... almost as much as me.

David

ECN 1114
